

## APRIL VIRTUAL FIELD TRIPS

The Nevada Science Center in collaboration with Mr. Ralph Krauss from Edutainment Learning and the Pinecrest Foundation is proud to offer FREE Virtual Field Trips to educators and their students!  
\*Educator pre-registration Required, links below\*

Students K-12 can take part in two-way questions and answer scenarios from expert guest speakers. Register with links below, educators can then share the presentation during class or distant instruction by screen sharing and having students spotlight the presentation.

Thursday April 15, 2021 11:00-11:30am PST

### Tracking Careers in Paleontology

Join the Nevada Science Center as they explore careers in paleontology while also exploring the ecological history of Nevada. Presented in conjunction with PaleoWest Consultants, Dr. Josh Bonde and Becky Hall will discuss the different career paths in paleontology. They will be discussing what life was like in the Miocene epoch 5-8 million-years ago with some fossils discoveries! Come along virtually as they discuss the animals that lived in Nevada millions of years ago and compare that to our modern ecosystems. [Register Here!](#)

Wednesday April 21, 2021 12:00-12:30pm PST

### Passport to Cathedral Gorge State Park, Nevada with Ranger Dawn

Ranger Dawn has been the Park Interpreter for Eastern Nevada State Parks for almost 12 years. Cathedral Gorge State Park in Lincoln County is one of the first four state parks in Nevada. Its uniqueness prompted it to be held as public land in the 1920s so it could be preserved for future generations. The spires and slot canyons are a natural playground created from millions of years of depositional material carried into a lake that has long since drained away. Tune it to for a journey of discovery at Cathedral Gorge State Park! Bring your questions for Ranger Dawn! [Register Here!](#)
